

Jazz Semiconductor, Inc. Company Fact Sheet

Description	Jazz Semiconductor® Inc., a Tower Group Company (NASDAQ: TSEM; TASE: TSEM), is a leader in Analog-Intensive Mixed-Signal (AIMS) foundry solutions for the manufacture of highly integrated semiconductor devices. The Company serves customers in the wireless, optical networking, power management, consumer electronics, storage, and aerospace/defense industries. Via access to Tower's process technologies, Jazz enhanced its offerings for diverse markets such as personal computer and office equipment, communications, automotive, industrial, professional photography and medical products.
History	The business was formed in March 2002 upon the contribution of Newport Fab, LLC, by Conexant Systems, Inc., together with a cash investment by affiliates of The Carlyle Group. In February 2007, it was acquired by Jazz Technologies, led by Gil Amelio, and in September 2008, Jazz merged with Tower Semiconductor, led by Russell Ellwanger.
Headquarters	4321 Jamboree Road, Newport Beach, CA 92660 Tel: 949/425.8000 Fax: 949/435.8757 www.jazzsemi.com
Facilities	Jazz Semiconductor's wafer fabrication facility is located in Newport Beach, California. Additional capacity is available through access to Tower's two manufacturing facilities in Israel. Jazz also has manufacturing capacity in China through partnerships with ASMC and HHNEC. In addition, Jazz has collaborated with Fujitsu for access to its 300mm Mie fab in Japan to offer RFCMOS in 90/65nm technology nodes.
Technology	The Company's broad portfolio of modular AIMS technologies includes RFCMOS, and specialty CMOS processes such as enhanced RFCMOS, BiCMOS, SiGe BiCMOS, High Voltage CMOS, and Bipolar CMOS-DMOS (BCD). Through access to Tower's process technologies, Jazz offers Embedded NVM, CMOS Image Sensors, and Flash MTP and OTP solutions. Jazz also offers world-class design enablement tools to allow complex designs to be achieved quickly and more accurately.
Customers	Jazz currently serves more than 100 customers, including Skyworks Solutions, Inc.; Conexant Systems, Inc.; Marvell Technology Group, Ltd.; Mindspeed Technologies, Inc.; Texas Instruments; Airoha Technology Group; Xceive Corporation; Microtune, Inc.; RF Micro Devices, Inc.; Entropic; Exar; Nanoradio; Phyworks; and Teledyne Scientific & Imaging.
Work Force	Approximately 660 employees
Management	Russell Ellwanger Chief Executive Officer of Tower, Chairman of Jazz Marco Racanelli Sr. VP & GM, RF & High Performance Analog Business Group and Aerospace/Defense Business Group, Jazz Board Member Nabil Alali Sr. VP, Fab Operations & Site Facilities, Jazz Board Member Allen Grogan Senior Vice President , Chief Legal Officer Susanna Bennett Vice President, Finance Chuck Fox Senior Vice President, Worldwide Sales, Tower Semiconductor Bala Govender Vice President, Chief Information Officer, Tower Semiconductor Andy Chan Vice President, Business Development & China Foundry Relations Jeff McHenry Vice President of Quality and Reliability Daniel Lynch Vice President, Human Resources
